DETAILED ACTION

Response to Amendment

1. The amendments to the claims have been entered. Claims 1 and 18 are currently amended.

Allowable Subject Matter

2. Claims 1, 2, 6, 7, 9, and 12-31 are allowed.

The following is an examiner's statement of reasons for allowance: in regard to claim 18, Basu et al. (U.S. Patent 6,594,629) do not disclose or suggest predefining a time period corresponding to a typical speech utterance where the time period is set to continuously receive and maintain an acoustic response. While Basu et al. disclose a buffer used in the "video only" method of speech event detection, Basu et al. provides no indication as to what length the buffer should be or how the buffer would be used in a method wherein the detection of a facial characteristic concurrently with a corresponding acoustic characteristic to activate the speech recognizer (i.e. activating the speech recognizer in response to detected acoustic energy associated with speech utterances while the facial characteristic associated with speech utterances is occurring).

Claims 1 and 30 similarly require a circular buffer for continuously receiving and maintaining a most recent time period, where the time period is predefined as a duration corresponding to a typical speech utterance. As explained above, Basu et al. do not

disclose or suggest such a feature. Additionally, Basu et al. (U.S. Patent 6,219,640) do not disclose or suggest such a feature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Friedrich et al. (U.S. Patent 6,853,972) disclose a system that checks for eye focus and speech input greater than 0 and only activates a speech recognizer in response to both events being true.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian L. Albertalli whose telephone number is (571) 272-7616. The examiner can normally be reached on Mon - Fri, 8:00 AM - 5:30 PM, every second Fri off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Hudspeth can be reached on (571) 272-7843. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
